

Reflex is the most effective system for mastering basic facts in addition, subtraction, multiplication and division for grades 2+. Full of games that students love, Reflex takes students at every level and helps them quickly gain math fact fluency and confidence. (from their website)

Students work to get the "green light." This indicates a student's completion of a good day's practice towards building fact fluency. The green light also allows kiddos to go to the store and to open new games.

Grades 3-5 students are loaded and working! 2nd grade coming soon!

The student link is on our website. Parent letters were sent home to link to student's account to track progress.
