

Third Grade Families,

We are missing our sweet students and our daily routine already! In the packet you receive from the school, you will find pages and activities to review skills in several subjects. These activities are designed to help continue learning at home in a stress free way! If you are unable to pick this packet up, here are some additional ideas to guide your child as they work from home.

Reading- As we always say, the best way to practice reading is to read, read, read! Please continue reading with your child and listening to your child read books and passages every day! Talk to your child about what they are reading, discuss the characters and events in fiction books, and look for nonfiction text features in nonfiction books. Spend time working in Moby Max to further reading skills in a fun way!

*Fun Ideas- Read in a fort, read outside, read with a flashlight, read to a stuffed animal, read to a younger sibling, or read to a relative or friend on the phone!

Math- This is a great time to work towards reaching 100% for fact fluency in Reflex! Try to achieve a green light day as often as possible to improve your percentage in multiplication and division fluency! Spend time in Moby Max working on math skills!

*Fun Ideas- Dice and card games- roll two dice or flip over two playing cards and multiply the two numbers together to get a product, write multiplication and division facts outside using chalk, make up a story problem to tell your family and see if they solve it correctly, make a graph with your family, create your own multiplication and division flashcards and practice them daily!

Language/Writing- Keep a daily journal of your adventures, write about your favorite character in a book, email your teacher a letter, practice cursive in a journal or notebook.

*Learning Websites to Visit:

-Moby Max, Reflex Math, and any of the SES student links
